

FF-CLE-W90

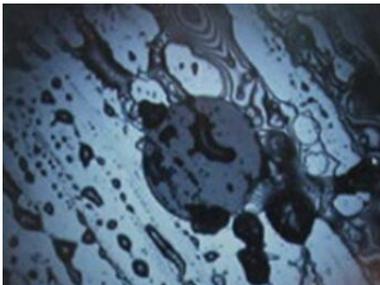

ONU Connector Cleaner

This cleaning pen has a unique 90-degree angle design, specially customized for ONU cleaning. Customers can quickly, efficiently and conveniently complete the on-site cleaning of the ONU.

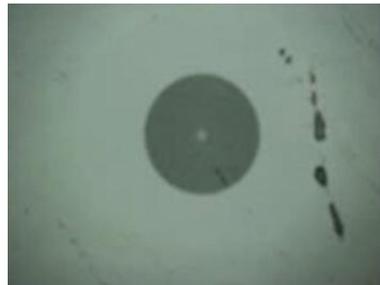

With a single press, the stains, dust, etc. on the end face of the fiber ferrule can be removed immediately. The cleaning belt is made of anti-static resin material, no need to wipe with alcohol, and the cleaning rate is as high as 99%. It can be used repeatedly for more than 600 times, and the real cost is low and economical.
