

NETWORK STATE TESTER

Ver1.03

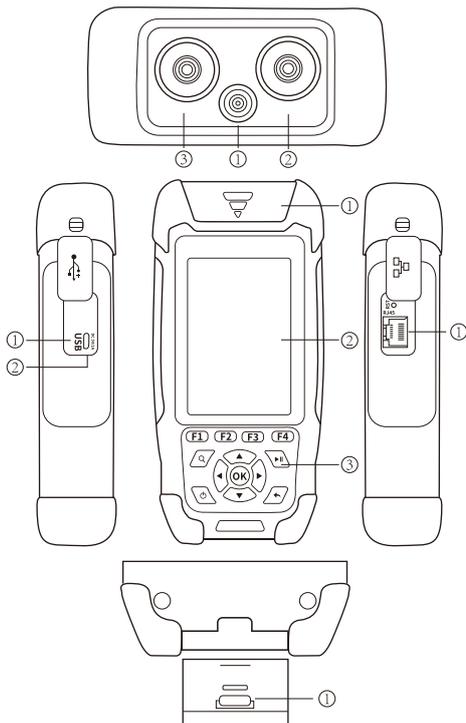

An All-rounder Fiber Network State Tester
ONT/ONU State Tester, GPON/EPON Power Meter
Visual Fault Locator, RJ45 Cable Sequence/Length/Tracking

Drawings

Top

- ① VFL port
- ② OLT (1490/1550nm) port
- ③ ONT (1310nm) port

Left

- ① Micro USB
- ② LED Charging indicator

Right

- ① RJ45 port

Bottom

- ① RJ45 remote tester

Main view

- ① Dust cover
- ② 3.5 inch color LCD
- ③ Function keys

| General | |
|---------------------------------|--|
| Size/Weight | 173x82x37mm/ 350g |
| Display | 3.5 Inch TFT LCD, 320x480 Resolution |
| Interface | Micro USB |
| Power Supply | 5V DC, 2A; 4000mAh/3.7V Lithium battery (with air traffic certification) |
| Working Time | >12 hours (Continuous measurement); Standby>20 hours |
| Language | Chinese, English |
| Environmental Conditions | Operating temperature and humidity: -10°C~+50°C, ≤95% (non-condensation) Storage temperature and humidity: -40°C~+70°C, ≤95% (non-condensation) |

| Network State Tester | |
|-----------------------|---|
| ONT States | Online, Offline, ONT Fatal, ONT Bad, ONT No Power, Fiber Fall Off |
| Insertion Loss | <1.5dB |
| Connector | FC/SC/ST |

| PON Power Meter | |
|----------------------|--|
| Testing Range | -35 to +10dBm @1310nm (upstream) -40 to +12dBm @1450nm (Downstream) -40 to +25dBm @1550nm (Downstream) |
| Unit | mW/uW/nW/dBm/dB (REF) |
| Accuracy | 0.5dB |
| Resolution | 0.01dB |

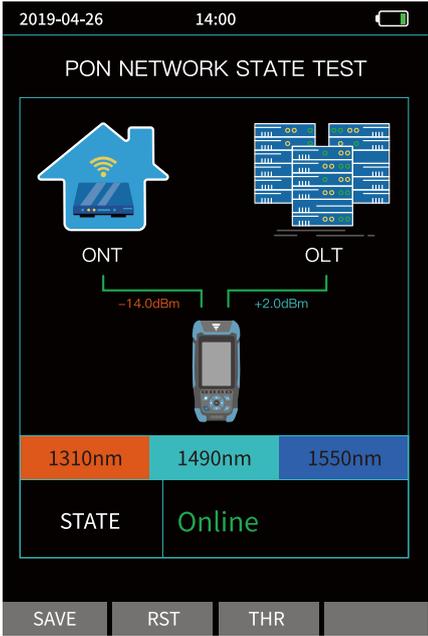

| Visual Fault Locator | |
|-----------------------|---|
| Wavelength | 650nm |
| Output Power | 10mw, CLASSIII B |
| Range | 12km |
| Launching Mode | CW/1Hz/2Hz |
| Adapter Type | 2.5mm Universal Adapter for FC SC ST Connectors |

| Rj45 Cable Tracking | |
|------------------------|------------------------------|
| Range | 300m |
| Signal Type | Analog signal/Digital Signal |
| Signal Receiver | Optional |
| Warning Sound | Support |
| Cable Type | 568A, 568B |

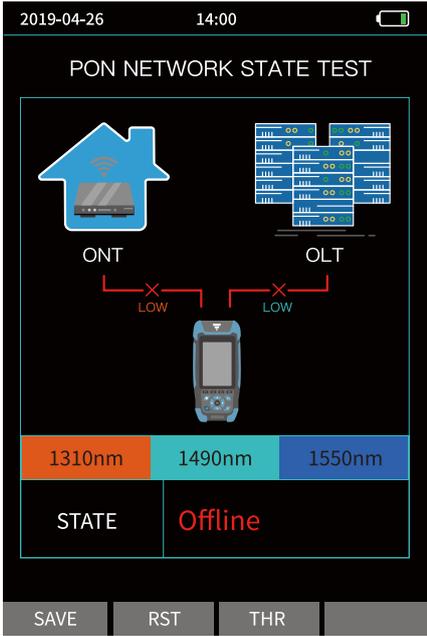

| Rj45 Cable Sequence | |
|--------------------------|---|
| Range | 300m |
| Signal Type | Analog Signal/Digital Signal |
| Active Cable Test | Not Support |
| Testing Time | Less Than 15 Seconds |
| Remote Unit | Can be took out from bottom of the device |

| Rj45 Cable Length | |
|--------------------------|------------------------------|
| Range | 300m |
| Signal Type | Analog signal/Digital Signal |
| Active Cable Test | Not Support |
| Testing Time | Less than 15 seconds |

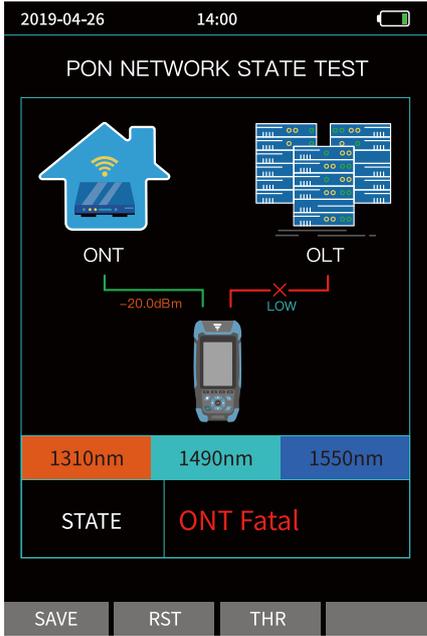

Functions & Settings

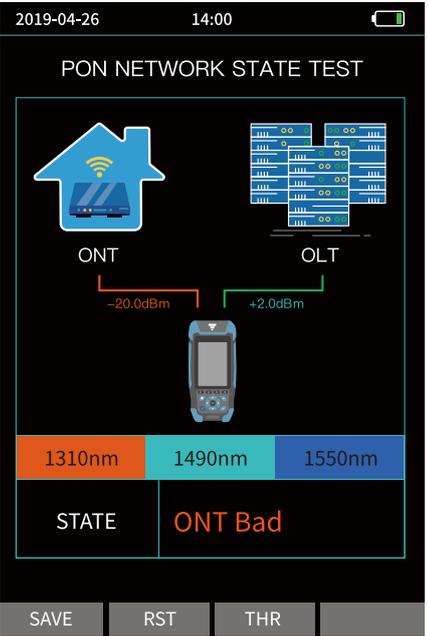

Online
The connection between OLT, tester and ONT is in green state.

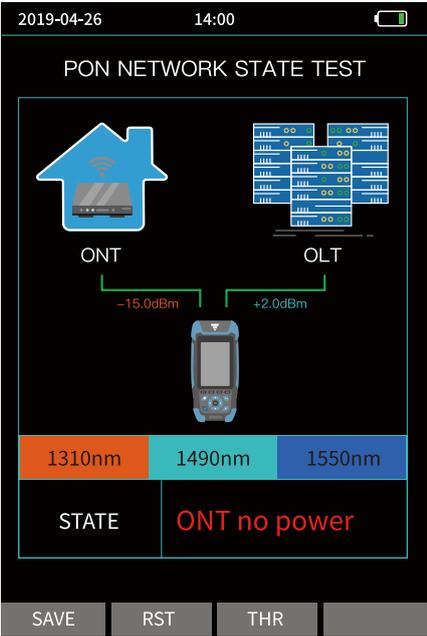

Offline
The connection between OLT and tester is red, and the connection between tester and ONT is red. The ONT is gray.

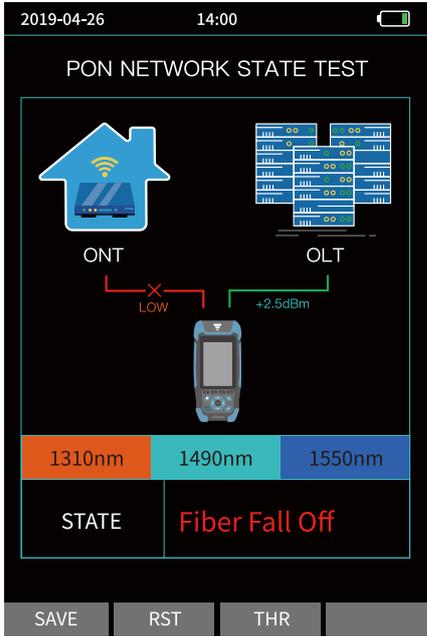

ONT Fatal
The connection between OLT and tester is red; the connection between tester and ONT is green

ONT Bad
The connection between OLT and tester is green, the connection between tester and ONT is orange.

ONT No power
The connection between ONT and tester is green; the connection between tester and OLT is green; ONT is gray.

Fiber Fall Off
The connection between OLT and tester is green; the connection between tester and ONT is disconnected and in red state;

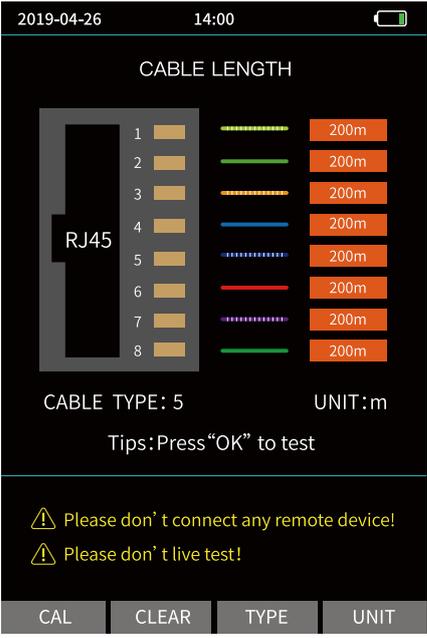

Functions & Settings

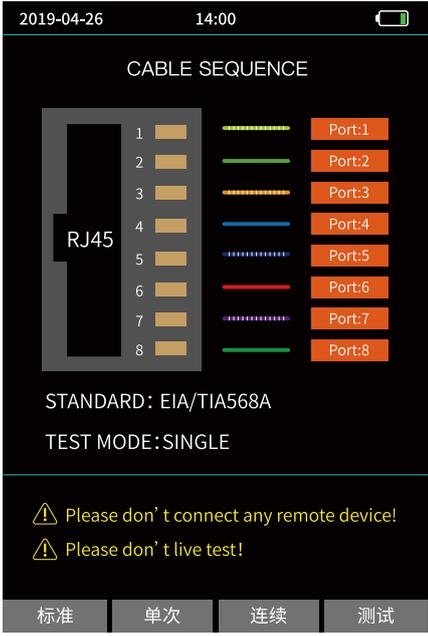

PON Power Meter

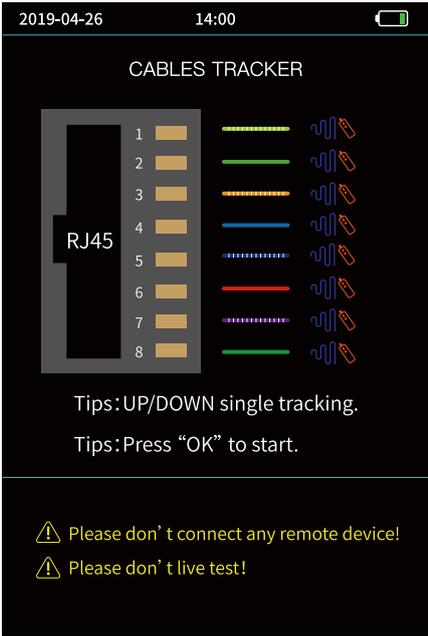

Visual Fault Locator

Rj45 Cable Length

Rj45 Cable Sequence

Rj45 Cable Tracker

Setting

Why the tester is needed?

With the popularity of PON network and the blowout development of optical network terminals, telecom operators need to have a new method to check the occupation of resources on optical ports to reduce the waste of port resources.

By a kind of traditional manual checking is extremely complicated, inefficient, and will bring huge trouble to subscribers.

The PON terminal state tester can intelligently check the resource state of optical network terminal and intelligently analyze the ONT and PON network without maintenance personnel entering the subscriber's house.

It is integrated with PON optical power meter, visual fault location, RJ45 cable sequence/length and digital cable tracker. The tester is an all-round helper in the field of current PON network maintenance and terminal resource checking.

Packing List

| Item | Description | Quantity |
|------|----------------------------|----------|
| 1 | The Tester | 1 |
| 2 | USB Cable | 1 |
| 3 | Power Charger | 1 |
| 4 | FC/SC/ST Adapter | 1 |
| 5 | Signal Receiver (Optional) | 1 |
| 6 | Carry Bag | 1 |
| 7 | User Manual | 1 |
| 8 | Warranty Card | 1 |
